_____
_____ Privacy and safer searching If someone may monitor your device, accounts, internet connection, location, downloads, or browser activity, consider using a safer device and a trusted network. Private browsing may reduce locally saved history but does not make activity invisible. Clearing history can also be noticed. A website Quick Exit button changes the page; it cannot erase browser, download, router, account, employer, school, carrier, or device records. Choose only steps that feel safer in your situation.

Do not store identifying or safety-sensitive answers where another person may find them.

Educational scope and professional limits This resource provides general psychoeducation, reflection, and wellness support. It is not therapy, counseling, diagnosis, assessment, treatment, medical advice, legal advice, crisis response, forensic evaluation, or an individualized safety plan.

It does not replace care from a licensed clinician, healthcare professional, attorney, trained advocate, emergency service, or other qualified professional. Laws, court procedures, services, and risks vary by location and circumstance.

Choice, pacing, and inclusion You may skip, change, discuss, dictate, draw, pause, or stop any activity. No exercise can determine what you experienced, diagnose a condition, prove a legal claim, guarantee safety, or tell you whether to stay, leave, report, reconcile, forgive, or pursue court action. Adapt language and activities for culture, identity, disability, neurotype, age, literacy, sensory needs, and personal preference. Automatic translation can make mistakes; confirm legal, medical, emergency, and safety-critical wording with a qualified person.
